Traditional Patterned Glass

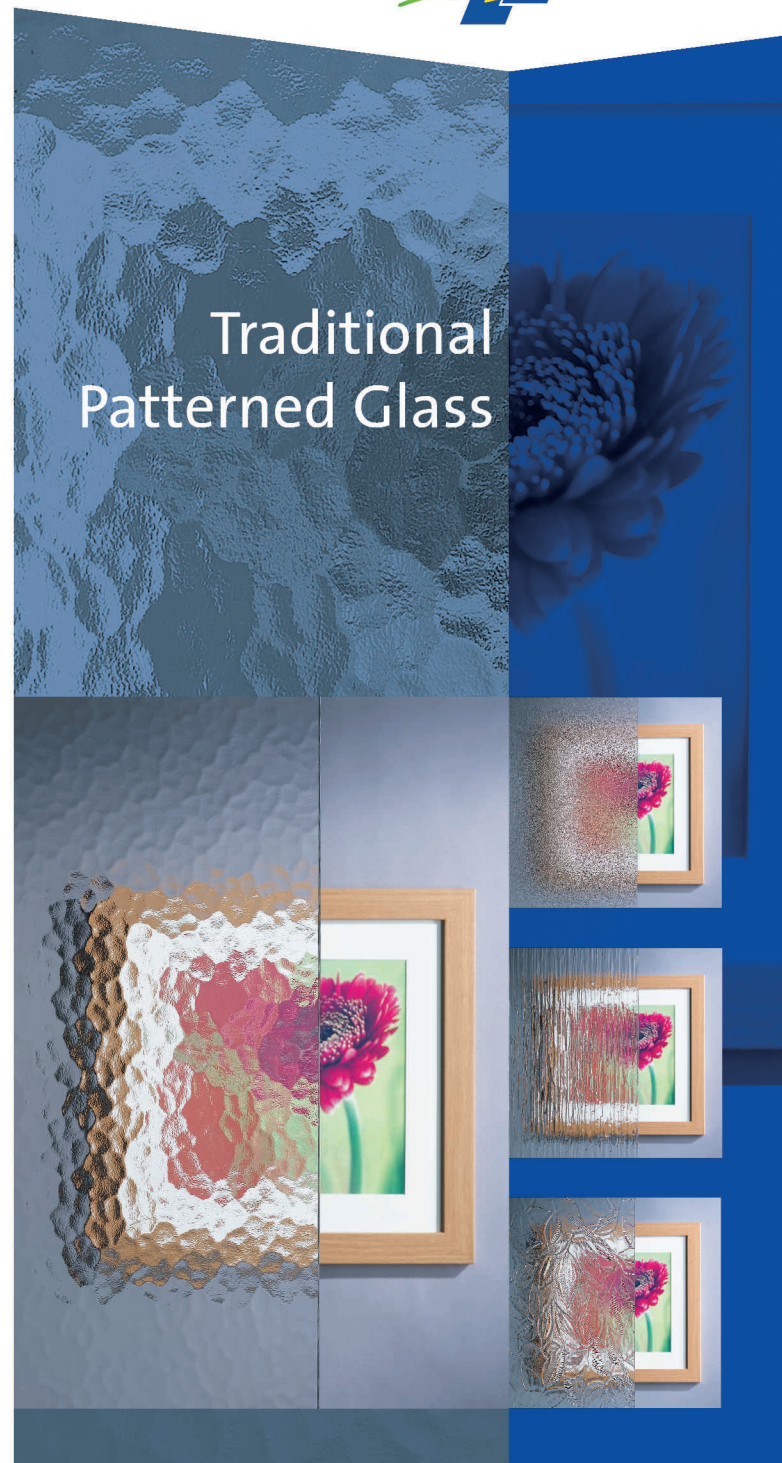

Ideal for a wide variety of applications, such as bathroom windows, porches, doors, conservatories or glazed partitions, the Saint-Gobain Solaglas range of traditional patterned glass offers both style and functionality.

Choose from a range of seven popular patterns, each offering a different level of obscuration, providing you with privacy whilst at the same time maximising the level of daylight passing through the glass. The products are available in single and double-glazing and also stock sheet form.

Saint-Gobain Solaglas is able to advise on the correct specifications of the glass for differing applications in accordance with current national regulations, such as thermal insulation and safety.
